

Faculty of Business and Economics (FBE)

Master of Business Administration in Economics (MBA in Economics)

I. Why Choose this Program?

The Master of Business Administration in Economics (MBA in Economics) program was designed to:

1. Develop Advanced Economic and Strategic Business Expertise – Build comprehensive knowledge of economic theory, business strategy, public policy, international economics, and global economic systems to address complex business and economic challenges.
2. Strengthen Analytical and Evidence-Based Decision-Making – Develop advanced quantitative, analytical, research, and critical thinking skills to evaluate economic trends, assess business performance, formulate effective policies, and support strategic decision-making.
3. Leverage Digital Technologies and Economic Analytics – Integrate artificial intelligence (AI), big data, econometrics, business analytics, and digital technologies to enhance economic forecasting, policy evaluation, and data-driven business decisions.
4. Apply Economics to Real-World Challenges – Gain practical experience through economic modeling, policy analysis, case studies, business analytics, and applied research that address national, regional, and global economic issues.
5. Advance Leadership and Professional Excellence – Prepare graduates for leadership roles in business, finance, government, international organizations, research institutions, and academia while fostering ethical leadership, sustainable development, and lifelong professional learning.

II. Future Career Prospects

Graduates from this program will be able to pursue careers such as:

1. Economist or Economic Analyst
2. Policy Analyst or Public Policy Advisor
3. Business Strategy and Economic Development Manager
4. Financial Analyst or Investment Analyst
5. Market Research and Business Intelligence Manager
